

Are you a jewellery designer or silversmith and want to gain experience in the DIVA Atelier in 2024? A residency at DIVA is a chance to grow as a maker and to reflect on your work and creatively explore new ideas. Those participating in DIVA's artists-in-residence programme will reap the benefits of time for research, the space and tool required for experimentation as well as support in their specific field. It is also an opportunity to benefit from access to the museum's excellent specialist library and to become better acquainted with the rich and diverse museum collection. More information. For a residency in 2024, the museum expects your application before February 18, 2024.

You will find additional information and a registration form on the [website of DIVA](https://www.silberschmiede-forum.eu/en/diva-atelier).
