

Silversmithery **Working with tubes**

Welcome to a workshop for making usable objects from tubes!

Using tubes when you are working in a bigger scale than jewelry can be a possibility to create corpus in the limited time of 5 days. It is not as time consuming as for example raising from sheet metal. The tubes can be found, bought, they can be self made from unrollings, they can be metal or non metal, big, small a.s.o.

You bring them with your idea or use what we offer. Metalsmiths with different education and experiences will have the opportunity to create Corpus. The german silversmith and artist Beate Leonards will accompany/assist in the design and the technical process of making functional objects.

Course period

1 – 5 August 2016

Course fee:

3 750 SEK incl. some materials and lunch.

5 950 SEK in a single room incl. some materials, breakfast, lunch and evening meal.

5 450 SEK in part of a double room incl. some materials, breakfast, lunch and evening meal.

Metal material is available to buy.

Check-in from 4 pm the day before workshop start.

Last date for registration: 1 May 2016, but you are welcome to register also after this date if we still have places left. You will find the link to the registration form above next to the workshop period.
